### **Job Posting – Structural Engineer (0-3 years experience), San Diego, CA**

Join our team! Casual atmosphere, professional services, high caliber expertise, and a wide variety of structural engineering projects – Peterson Structural Engineers (PSE) is hiring for our San Diego office location.

We are seeking a Structural Engineer with 0-3 years of engineering experience. Duties include structural engineering design and consulting and related report writing, drafting design, forensic studies, seismic evaluations, condition assessments and other structural engineering related duties. Experience in diverse structural engineering materials and markets is a plus, however PSE provides ongoing training and those with more specific backgrounds will certainly be considered.

Minimum requirements:

- 0 to 3 years of engineering experience
- EIT required, PE preferred
- Education and/or experience in seismic design preferred
- BS or MS in Structural or Civil engineering from an ABET accredited university with experience and/or education related to structural engineering (fundamental knowledge in steel, concrete, wood structural analysis as well as seismic analysis/design)
- Effective communication and interpersonal skills
- A desire and aptitude to learn and collaborate in a team environment
- Strong technical skills, organizational abilities and work ethic
- Proficient in Microsoft Excel/Office Suite, Autocad experience a plus

**Why PSE?** PSE is a single discipline structural engineering firm serving a wide variety of large and small clients on nearly all types of projects. From municipal to industrial, private to commercial, PSE has a wide range of project breadth and diversity. PSE's principals alone have over 100 years of combined engineering expertise. We pride ourselves in gaining deep knowledge for how to successfully solve complex problems. Our motto is - Bring on the challenge! We've even been known to bring some magic to life at some of the world's most renowned theme parks! While we pride ourselves in our technical abilities, at our core, our heart and soul lies in the people of PSE and our commitment to excellence.

As a member of the PSE family, you will be supported by a technical staff of over 20 employees with professional licenses in over 30 states, as well as in house administrative and marketing resources. PSE has internal committees within the company geared towards improving the experience, efficiency, and competency of its employees. PSE's environment provides its employees the ability to learn and grow their technical expertise through a wide range of projects, while also valuing work-life balance.

PSE provides a generous benefits package, competitive salary, a desirable location, and a fun and casual office environment with a diverse variety of structural engineering projects.

PSE is an Equal Employment Opportunity/Affirmative Action Employer
